To Whom It May Concern

Please accept this letter of recommendation for Paradigm Consultants, Inc. I have worked with Paradigm since 1995 when they started in business and feel confident I am qualified to provide the following comments about their services.

Paradigm has provided quality geotechnical engineering and construction materials engineering and testing services for over 75 projects throughout the district. This includes small classroom addition projects to major projects like our new \$35 million district stadium and natatorium in The Woodlands. Regardless of the project size we consistently experience quality and timely services that are completed on-time and within budget.

Some of the projects for which Paradigm provided services are listed below.

Caney Creek High School	Conroe High School Additions
Creighton Intermediate School	Maplewood Flex School
Moorhead Stadium Additions	Peet Junior High School
South District Stadium and Natatorium	Conroe ISD Transportation Center

Their electronic report posting program is especially effective and results in less paper and better report organization for our staff and consultants. Company Principals are available when needed to address project-specific issues and become involved in resolution of construction-related problems that might be encountered. Their timely and accurate invoices are also appreciated.

I am confident that you will find Paradigm is a very capable and responsive firm that provides quality services in a timely manner and at a fair price. Please feel free to contact me if you need any additional information.

Sincerely,

Charles Bollinger
Assistant Director of Facilities and Maintenance Operations
